

PRODUCT SPECIFICATIONS

Rope Trainer-LD990

Code: 45110

MRP : 239800.00

Instead of Traditional Weight Stack Design, the Rope Trainer 990 uses Electromagnetic Resistance. 6 Resistance Level and the Handles with Bluetooth Technology. It is a great functional way to train your back and core. As you pull the rope, it just keeps coming, and it requires strength and cardiovascular endurance to keep at it. It works your back and biceps, but if done at the right intensity, it's also a good cardio workout.
